

NEXUS® is a Modular Sign System ... modular in that it is composed of standardized components for easy assembly and changeability ... a system in that these same standard components form a comprehensive and unified look. And yet, NEXUS® allows the designer unprecedented freedom to create original and unique sign projects.

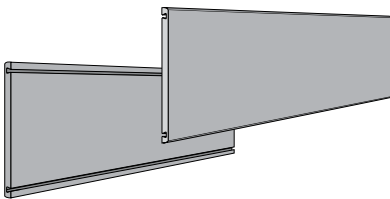

nex-us (nek/səs), *n.*, *pl. nex-us*. 1. a means of connection; tie; link. 2. a connected series or group. [*< L: a binding, joining, fastening (ptp. of nectere to bind, fasten, tie)*]

NEXUS® combines extruded aluminum FacePlates and Caps, Rails or Frames into a system of directories, wall, door, projecting, suspended, desk or counter signs. The Faceplates are available as standard in a 400 brushed finish, anodized clear. Graphics are supplied as standard in Type 100 computer-cut vinyl ... see **FS-118** for available colours, sizes, typestyles, symbols, arrows and custom logos. Engraved and/or Tactile graphics also available.

The MountPlate System

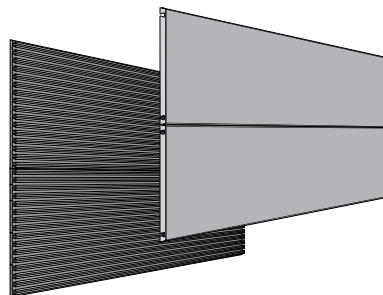

NEXUS® MountPlate is attached directly to the wall or door. NEXUS® FacePlate is snapped to the MountPlate using NEXUS® Splines. NEXUS® Caps may be used to finish the ends.

The NEXUS® Key Necessary to remove FacePlates.

The BasePlate System

NEXUS® BasePlate is attached directly to the wall. NEXUS® FacePlates are snapped to the BasePlate using NEXUS® Splines. NEXUS® Rails or Frames are used to finish the edges.

The Trim Look

Deceptively simple, the Trim Look joins FacePlates and matching MountPlates to produce the sleekest of sign profiles.

Profile: 6mm (1/4") thick

The Cap Look

The Cap Look offers an extra dimension. Individual caps are added to the FacePlate ends to give an entirely different look to the sign.

Profile: 6mm (1/4") thick

The Rail Look

Taking the Cap Look to greater heights is the Rail Look. A single rail, the length of the sign, replaces the individual caps. The edge of the sign takes on an even thinner appearance.

Profile: 7mm (9/16") thick

The Frame Look

Adding elegance without bulk, the Frame Look Sign is in keeping with the Nexus® silhouette ... ultra thin. The frame comes with square corners.

Profile: 15mm (9/16") thick
